

PIONEERS PARK NATURE CENTER

Camp Discovery 2010

Ages 3-6, Monday - Thursday, 9:00 - 11:30 a.m.

\$60/week, Prairie Building Bluestem Classroom

Call 441-7895 for more information

Each week we'll learn through outdoor exploration, crafts, puppets, nature games, snacks and story time. Registration begins March 1st.

Fantastic Flying Feathers: June 7-10

Join us for this week-long adventure discovering the many things that make a bird a bird. We'll get to see several birds up close, including those caught by our bird bander.

Our Many Legged Friends: June 14-17

Six legs or eight, they're everywhere we look. We'll search for spiders and their webs, dip for insects and spiders that live in water, and observe our buzzing, hopping, weaving friends.

Thank You, Trees: June 28 - July 1

From the tippy-tippy top branches to the deep-down roots, we'll explore the amazing world of trees and discover all the things these 'barky' neighbors do for our world.

Reptile Rap: July 12-15 OR July 19-22

Are snakes slimy? Can a turtle crawl out of its shell? Find out for yourself! You'll have a chance to meet many different kinds of reptiles and investigate their lives.

Send registration form with payment to Pioneers Park Nature Center, 2740 'A' Street, Lincoln, NE 68502
